**MANUFACTURING
CAPABILITIES**

Manufacturing Capabilities

Rep Materials is committed to producing high-quality conduit fittings and pre-fabricated strut systems.

Custom Bending & Threading

- We specialize in cutting, threading, and bending Rigid and EMT conduit to your exact specifications.
- Fast turnaround on special length nipples, custom segments and special radius elbows.

Pre-Fabricated Strut

Rep Materials offers pre-fabricated strut systems, providing preassembled channels and fittings for faster installation and reduced labor costs.

Quality Control

Rep Materials is committed to strict quality control through comprehensive testing, ensuring that all conduit and strut products meet rigorous standards.
